KARTIK SHARMA

DATA ANALYST

Bhayandar, Mumbai, India | +91 9695392099 | kartikprayag68@gmail.com | github.com/kartik-data | linkedin.com/in/kartik-sharma-124analyst

PROFESSIONAL SUMMARY

BSc IT student skilled in **Python, SQL, Advanced Excel, Power BI, and DAX**, with hands-on data analysis experience on datasets of up to 3.5M+ rows across e-commerce, healthcare, sales, and transport data. Completed Commonwealth Bank, Tata iQ, and Deloitte virtual job simulations. Strong communicator who turns data into clear, actionable insights for stakeholders.

CORE SKILLS

Programming & Analysis: Python (Pandas, NumPy, Matplotlib, Seaborn), Exploratory Data Analysis (EDA), Descriptive Statistics, Logistic Regression
Databases & SQL: SQL (PostgreSQL), Joins, Subqueries, CTEs, Window Functions, Aggregations, Relational Schema Design
Visualization & Reporting: Power BI (DAX, Power Query, Star Schema), Advanced Excel (Pivot Tables, SUMIFS, COUNTIFS, Lookups, AI-assisted formulas), Tableau (basic), Dashboards
Data Analysis: Data Cleaning, Insights Reporting, Sentiment & Engagement Analysis
Tools: Jupyter Notebook, pgAdmin, VS Code, Git/GitHub
Soft Skills: Stakeholder Communication, Data Storytelling

PROJECTS

NYC Yellow Taxi Earnings Dashboard | Power BI, Power Query, DAX — Nov 2026
- Cleaned 3.5M+ NYC TLC taxi trip records in Power Query and built a star schema data model.
- Created DAX measures (revenue per minute, average daily revenue, tips) and an interactive dashboard.
- Found that airport pickups were about 6.5% of trips but 16% of revenue.
- Found that Sunday and Monday revenue was about 28% lower than Tuesday to Saturday.

Olist E-Commerce Data Analysis | Python, Pandas, NumPy — Nov 2025
- Cleaned and merged 6 relational datasets (100,000+ rows) using Pandas and NumPy.
- Analyzed seasonal sales, delivery delays, and payment patterns to support inventory decisions.

Healthcare Systems Performance Analysis | SQL, PostgreSQL — Sep–Oct 2025
- Designed PostgreSQL tables and used joins and aggregations to calculate hospital KPIs by department.
- Analyzed patient flow and monthly expenses to find cost anomalies and underused resources.

Sales & Customer Performance Dashboard | Excel, Pivot Tables — Oct–Nov 2025
- Built an Excel dashboard with Pivot Tables and Slicers on 31,000+ sales records for customer segmentation.
- Created a Targets vs. Achieved tracker with conditional formatting to show regional performance.

Restaurant Data Analysis | Python, Folium — 2025
- Analyzed cuisine trends, pricing, ratings, and delivery vs. table booking using Python and Folium maps.
- Identified price and location patterns to support business and customer experience decisions.

ScamShield AI – Fraud Detection Web App | Python, Streamlit, Gemini AI, OCR — Apr 2026
- Built a Streamlit app using Gemini AI and OCR to scan emails, images, and documents for phishing signs.
- Created fraud-pattern logic and a dashboard for instant risk scoring.

VIRTUAL JOB SIMULATIONS

- **Commonwealth Bank – Intro to Data Science:** Excel (SUMIFS, COUNTIFS), data anonymization, schema design, sentiment analysis
- **Tata iQ (Geldium Finance) – Credit Risk:** EDA, logistic regression, predictive modeling, responsible AI
- **Deloitte – Data Analytics:** forensic case analysis, Tableau dashboards, client-ready reporting

EDUCATION

Bachelor of Science in Information Technology (BSc IT) 2024 – 2027
Thakur Ramnarayan College of Arts & Commerce, Mumbai

CERTIFICATIONS

- SQL for Data Analysis – Online Certification (2025)
- Git – Spoken Tutorial, IIT Bombay (Sep 2025)
